MEMORANDUM FOR: [REDACTED]

SUBJECT : [REDACTED] Materiel Support Functions and Responsibilities.

[REDACTED]

Jim Garrison has told me that he believes my dispatch to the Chief, Support Base, [REDACTED] has "across the board" implications as to the assignment of logistical responsibilities to the Office of Communications. This, of course, was not my intention, but after looking at the dispatch again I believe that there may be some room for a better understanding between the Offices of Communication and Logistics as to (a) what a "forward depot" is and what it does, and (b) what the "appropriate control records" are which Communications needs to keep and what the difference is between these and the accountable records, etc.

In any case, I have asked Jim to get in touch with you and discuss the matter further. If after this discussion either of you feels that existing regulations, instructions, etc., need to be changed, I would like to be advised.

I am sending a copy of this along to Jim.
